

TECHHYNA
— SOLUTIONS —
SHARP. RESILIENT. SMART.

We build digital products that **scale with you.**

A complete software services company. We discuss your needs, design the right solution and implement it end to end — from agentic AI and AI-native ERPs to web and mobile apps.

24/7

Support team

Your complete software services partner.

TechHyna Solutions is a complete software services company. We sit down with you to understand how your business really works, then design, build and implement customised digital solutions around it — from AI-native ERPs and agentic AI to web and mobile apps. With 8+ years of experience, you work directly with senior engineers from the first discussion to go-live and beyond.

HOW WE PARTNER

- Senior engineers on every project
- Transparent pricing & regular demos
- Performance-first, accessible by default
- Long-term partnership, not handoffs

WHY CLIENTS STAY

- Performance budgets enforced on every release
- Analytics and KPIs wired in from day one
- A dedicated engineer on speed-dial post-launch

A process that just works

Four clear steps. No surprises.

01

Discuss

We sit with your team to understand your goals, processes and the real problem.

02

Design

Wireframes, prototypes and pixel-perfect UI built around your users.

03

Build

Agile sprints with regular live demos. Clean code, automated tests.

04

Implement

Smooth rollout into your business, then monitoring and ongoing support.

Sharp. Resilient. Smart.

BUILT ON PROVEN TECHNOLOGY

Modern, cloud-native and AI-ready. We choose the right tools for your problem — not ours.

Web, apps & AI — built to scale.

Agentic AI and AI-native ERPs at the core — plus the web, apps and automation around them. Built and supported by senior engineers.

01

FLAGSHIP · AI

Agentic AI

AI agents that plan, use your tools and finish multi-step work on their own — with your team always in control.

- Agents for sales, support & operations
- Connected to your apps, APIs & data
- Answers grounded in your own documents
- Approvals, guardrails & audit trails

02

FLAGSHIP · AI

AI-native ERPs

ERPs built with AI at the core, not bolted on — for institutions and growing businesses.

- Ask your data in plain language
- Smart dashboards & forecasting
- Automated billing, HR & operations
- Modules shaped to your workflow

03

Web Design & Development

Fast, responsive, on-brand websites and web platforms.

- Websites & landing pages
- Web apps & portals
- SEO-ready, mobile-first

04

Mobile & Web Apps

Android, iOS and cross-platform apps built to scale.

- Customer & business apps
- Backend, APIs & payments
- Launch & ongoing support

05

AI

AI Chatbots

Always-on assistants on your website, WhatsApp and apps.

- Support & lead capture
- Trained on your content
- Handoff to your team/CRM

06

AI

Workflow Automation

Cut manual work by connecting your tools end to end.

- Process automation
- Reports, emails & data sync
- Integrations across apps

07

CRM & Custom Software

The software your team needs that isn't off-the-shelf.

- Custom CRMs
- Admin panels & dashboards
- Data pipelines & reporting

08

Care, Security & Growth

Keep it running, keep it safe, bring in customers.

- 24/7 monitoring & patches
- Security audits (OWASP)
- SEO & paid campaigns

Flexible timelines

Shaped to your scope & priorities

Agile sprints

Regular live demos, no surprises

Clear plan, fast

Timeline agreed before we start

Trusted by leading institutions & brands.

AND GROWING

What our clients say

5.0 ★ RATED

“

TechHyna designed and implemented the ERP that now runs our complete college operations. They took the time to understand how our university works and built the system around our processes.

Dr. Reena Grover
PRO · SRM NCR University

“

TechHyna designed our department website with real care. It presents our department clearly and professionally, and the team was responsive and thorough at every stage.

Prof. Sanjeev Kumar
Head of Department · IIT Roorkee

“

TechHyna manages the digitalisation of all our schools. They are a dependable, long-term technology partner who truly understands how schools run day to day.

Mr. Amey Vikram
COO · Chandrasheel Group of Schools

Flexible ways to work together.

Whether you're a business with a clear brief or an agency that needs a reliable engineering partner, we shape the engagement around you. Transparent pricing, no hidden fees.

01 / PROJECT

Fixed-scope builds

For a defined brief — websites, portals, CRMs and apps.

Fixed quote, agreed up front
Clear timeline from day one
Agile sprints & live demos
Post-launch support included

02 / RETAINER

Ongoing partnership

For evolving products that keep growing after launch.

Monthly retainer, flexible scope
Maintenance, monitoring & patches
New features on demand
Most clients stay 12+ months

03 / DEDICATED

Dedicated team

For agencies and enterprises that need extra engineering capacity.

Senior engineers, no outsourcing
Custom SLAs & contracts
Security audits & compliance
24/7 monitoring & on-call

SHARP. RESILIENT. SMART.

Let's build it together.

Tell us what you need. We respond within 24 hours with a clear plan and timeline — no fluff.
